

EYFS- Sharing quantities (lesson 2)

This week, the children will be sharing quantities equally.

Activity: Sharing quantities

1) Can you share the 8 sweets equally between Meredith and Harvey?

Top Tip!

Remember that when we share objects into 2 equal groups we are finding **half**.

2) There are 4 jelly beans in the bag. If we give 3 to **Meredith** and 1 to **Harvey** is that fair?

Circle your answer: **YES** or **NO** ?

Why do you think that?

3) Can you share the cookies equally between the 3 plates?
