## Year 1 — Multiplication

Lesson 4 making equal rows—arrays

## Task 1— fill in the missing gaps.

| (1) | There are rows.           |
|-----|---------------------------|
|     | There are in each row.    |
|     | There are rows of         |
|     | <br>There are altogether. |

| 2 |                        |
|---|------------------------|
|   | There are rows.        |
|   | There are in each row. |
|   | There are rows of      |
|   | There are altogether.  |
|   |                        |

| 4 | $\triangle \triangle \triangle \triangle \triangle \triangle \triangle$ |                        |
|---|---|------------------------|
|   | m   | There are rows.        |
|   |   | There are in each row. |
|   | $\triangle \triangle \triangle \triangle \triangle \triangle \triangle$ | There are rows of      |
|   | $\triangle \triangle \triangle \triangle \triangle \triangle \triangle$ | There are altogether.  |
|   | $\triangle \triangle \triangle \triangle \triangle \triangle \triangle$ |                        |

## Task 2— spot the mistake

Why is this not an array?
