

Solve the problems

1

Complete the pictogram using the information.

Key: 1 apple = 8 apples

- Group 2 collected 40 apples.
- Group 4 collected half as many apples as Group 1.
- Group 5 collected 20 more apples than Group 3.

How many apples did each group collect?

Group	Apples
1	
2	
3	
4	
5	

2

Class 3 are counting the colour of cars that pass the school.

Red	Blue	Black	Silver	White	Other
12	6	14	10	14	2

Draw a pictogram to represent their findings.
