

1

This pizza is being shared at Francis' birthday party.

If I give away  $\frac{2}{6}$  of my pizza, I will still have  $\frac{3}{6}$  left over.

Francis

Do you agree with Francis? Prove it!

2

Alexander has a chocolate bar with 8 pieces.

If I eat 2 pieces and give  $\frac{3}{8}$  to a friend, I will still have over half of what I started with.

Alexander

Do you agree with Alexander? Explain with reasoning.
