

Year 4 – Measure – Comparing Grams and Kilograms

Remember...

- Convert the grams into kilograms or the kilograms into grams so that both numbers are in the same unit of measure.
 - Then you can compare the two numbers.

1.

a) 5 g _____ 50 kg

e) 0.2 kg _____ 2000 g

b) 3.2 kg _____ 320 g

f) 4.05 kg _____ 4050 g

c) 0.42 kg _____ 4200 g

g) 956 g _____ 0.956 kg

d) 439 g _____ 0.439 kg

h) 0.002 kg _____ 20 g

2.

- a) A baker wanted to know if 2.46 kilograms of flour was equal to 246 grams. Can you compare the two to find out?

- b) A child wanted to buy 1239 grams of pick 'n' mix sweets. How many kilograms would this be?
