

Year 4 – Measure – Comparing Millilitres and Litres

Remember...

- Convert the millilitres into litres or the litres into millilitres so that both numbers are in the same unit of measure.
- Then you can compare the two numbers.

1.

a) 4 ml _____ 40 l

e) 0.3 l _____ 3000 ml

b) 2.1 l _____ 210 ml

f) 5.06 l _____ 5060 ml

c) 0.31 l _____ 3100 ml

g) 845 ml _____ 0.845 l

d) 328 ml _____ 0.328 l

h) 0.003 l _____ 30 ml

2.

- a) Mr. Morgan wanted to know if 3.57 litres of juice was equal to 357 millilitres. Can you compare the two to find out?

- b) A child wanted to use 2348 millilitres of milk when making pancakes. How many litres would this be?
