

Answers Week 4

Reading - Tuesday

- Name 2 things that Derek Drew has done.

He has copied someone's work, taken the rubber and called someone rude names.

- Do you think that the 'child' in the poem is the same child every time or do you think it is different children? Justify your answer.

Either answer works as long as there is a justification. For example, I think it is one child because they use the same pattern each time. I think it is lots of different children because there are usually lots of children asking questions in a classroom.

- How do you think Mrs Butler is feeling? What makes you think that?

Mrs Butler could be.... Annoyed, fed up, tired. From her answers, we hear that Mrs Butler is a little fed up of constantly answering questions.

- What did you think of the poem? Give your opinion and explain why.

You can't be wrong here 😊
