

Year 6 – Revision #3 Number and Place Value

Compare and order

Insert the correct symbol ($<$ $>$) between each pair of numbers.

$$4\ 586\ 325 < 4\ 587\ 632$$

$$3\ 765\ 486 > 3\ 752\ 632$$

$$607\ 548 < 6\ 075\ 486$$

$$1\ 254\ 368 > 1\ 217\ 879$$

Place each set of numbers in the correct order.

1. Starting with the smallest

4 586 931	4 587 215	4 574 263	4 592 156
4 574 263	4 586 931	4 587 215	4 592 156

2. Starting with the largest

5 786 549	5782 496	5 786 214	5 785 426
5 786 549	5 786 214	5 785 426	5 782 496

Place a number in each space so that each sequence stays in ascending order.

1. 458 628 *Any number larger than 458628 but smaller than 460354* 460 354 468 064

2. *Any number smaller than 5 783 612* 5 783 612 5 862 135 *Any number larger than 5862 15*
