COVID-19 Testing for school staff

I write to inform you that, starting next week, in-line with the Government guidelines, school staff are going to be taking COVID-19 tests twice per week.

The purpose of the testing is to identify those staff who may be positive but are not showing any symptoms and therefore, taking these tests will stop the spread of COVID-19 even quicker. I would like to thank all of my staff who have agreed to take part in this optional testing.

I am writing to you because if school staff test positive for COVID-19, then this may have implications for bubble closures in school. As a school, we will always endeavor to keep you updated at the earliest opportunities.

It goes without saying that we continue to operate fully in-line with our risk assessments and government guidance.

Best wishes,

Mr. E Gaibee
Headteacher
